

February 28, 2020

To whom it may concern,

We the Moons teachers are drafting this letter in regards to Del Endres and her readers that come into our classroom on every Thursday since October. They have been a very welcoming addition on Thursday as our kids enjoy every minute. Our children know that Thursday is “readers’ day” and in excitement they wait for them to show up between the hours of 10:30 and 10:40 a.m.

The classroom size is very big, ranging from eighteen to twenty kids and having the amount of readers come into the class has been very helpful as each reader is grouped up with at least four to five children each. The books that they bring to read to the children keep them very engaged with ideas and thoughts as the readers ask questions to further intriguing their curiosity and interest.

The individualize reading provides a learning environment which helps the children in small groups as well as one on one time while also having the positive engagement from the community.

We as teachers hope that programs like this will continue to provide excellent learning opportunities for not only our school but as well as for schools in the area of Taos. They bring a lot of joy to our little ones and wish for them to keep on giving that love and excitement which comes from reading great books.

Sincerely,

Lead Teacher Kristina Medina.
